- (a) Format. Unless the wireless regulations provide otherwise, the applicant must submit both a paper copy and an electronic copy (in a searchable format) of any application, as well as any amendments or supplements to the application or responses to requests for information regarding an application, to the Administrator. An application is not complete until both the paper and electronic copies are received by the Administrator.
- (b) Content. In order to be considered complete, an application must contain:
 - (1) All information required pursuant to the wireless regulations.
 - (2) A completed application cover sheet signed by an authorized representative of the applicant.
 - (3) The name of the applicant (including any corporate or trade name), and the name, address, email address, and telephone number of a local representative and of all duly authorized representatives and consultants acting on behalf of the

LICENSES AND PERMITS 12.13 (6)

applicant with respect to the filing of the application. If the applicant is a wireless infrastructure provider, the name and contact information for the wireless service provider(s) that will be using the wireless facility must also be provided.

(4) A statement of which state or federal deadline(s) apply to the application.

(5) A separate and complete description of each proposed wireless facility and the work that will be required to install or modify it, including but not limited to detail regarding proposed excavations, if any; detailed site plans showing the location of the facility and technical specifications for each element of the facility, clearly describing the site and all structures and equipment at the site before and after installation or modification and identifying the owners of such preexisting structures and equipment; and describing the distance to the nearest residential dwelling unit. Before and after 360-degree photo simulations must be provided for each facility.

(6) A certification by the applicant that the wireless facility will not materially interfere with the safe operation of traffic control equipment or sight lines or clear zones for transportation of pedestrians, and will fully comply with the federal Americans with Disabilities Act or similar federal or state standards regarding pedestrian access or movement.

(7) A certification by the applicant that the wireless facility will comply with relevant FCC regulations concerning radio frequency emissions from radio transmitters and unacceptable interference with public safety spectrum, including compliance with the abatement and resolution procedures for interference with public safety spectrum established by the FCC set forth in 47 C.F.R. §§ 22.97 to 22.973 and 47 C.F.R. §§ 90.672 to 90.675.

(8) A statement that the wireless facility will comply with the state electrical wiring code, as defined in Wis. Stat. § 101.80(4), as amended; the state plumbing code specified in Wis. Stat. § 145.13, as amended; the fire prevention code under Wis. Admin. Code § SPS 314, as amended; the Wisconsin commercial building code under Wis. Admin. Code §§ SPS 361 to 366, as amended; the Wisconsin uniform dwelling code under Wis. Admin. Code §§ SPS 320 to 325, as amended; and all local amendments to those codes enacted solely to address imminent threats of destruction of property or injury to persons.

(9) A structural report performed by a professional engineer registered in the State of Wisconsin evidencing that the support structure on which the wireless equipment will be mounted will structurally support the equipment, or that the structure may and will be modified to meet structural requirements, in accordance with applicable codes, including the National Electric Safety Code and the National Electric Code.

LICENSES AND PERMITS 12.13 (6)

(10) If the support structure on which the wireless equipment will be mounted is owned by a third party, a certification that the applicant has permission from the owner to mount its equipment on the structure. This is not required if the support structure is a governmental pole or a utility pole for designated services, as permission will be evidenced by the executed attachment agreement referenced in Section 3(c).

(11) To the extent that filing of the wireless permit application establishes a deadline for action on any other permit that may be required in connection with the wireless facility, the application must include complete copies of applications for every required permit (including without limitation electrical permits, building permits, traffic control permits, and excavation permits), with all engineering completed.

(12) Payment of all required fees.

(c) Waivers. Requests for waivers from any requirement of this Section 6 shall be made in writing to the Administrator. The Administrator may grant a request for waiver if it is demonstrated that, notwithstanding the issuance of the waiver, the City will be provided with all information necessary to understand the nature of the construction or other activity to be conducted pursuant to the wireless permit sought.

(d) Eligible Facilities Requests. If the applicant asserts in writing that its application is an eligible facilities request, the City will only require the applicant to provide that information set forth in subsection (b) to the extent reasonably related to determining whether the request meets the definition of “eligible facilities request” under 47 C.F.R. § 1.6100(b)(3). The applicant will be required to submit evidence that the application relates to an existing tower or base station that has been approved by the City. Before and after 360-degree photo simulations must be provided with detailed specifications demonstration that the modification does not substantially change the physical dimensions of the existing approved tower or base station.

(e) Fees. Applicant must pay an application fee in an amount set by the Common Council to allow recovery of the City’s direct costs of processing the application, subject to the limits contained in state and federal law, including Wis. Stat. § 66.0414(3)(d), as amended. Additional fees may include a municipal pole attachment fee, an other-than-municipal pole contact fee (if applicable), and an annual ROW Use fee. Additional costs may be applicable for any make-ready work, if needed. Applicable fees are found in Appendix A. Fees are subject to change by approval of the City Council, within legally established limits.

“Make-Ready” Work – If any application requires the owner of the pole/structure to incur costs to prepare the pole/structure to support the SWF, the owner shall provide a good faith estimate of the costs to the applicant, including the cost for pole replacement, if

LICENSES AND PERMITS 12.13 (6)

necessary. The applicant must pay the costs of the estimate to the owner before any “make-ready” work is completed. When the “make-ready” work is complete, the owner will calculate actual costs and either bill for costs above the estimate or refund the balance overpaid from the estimate. *Wis. Stats. 66.0414(4)(f)(g)*

(f) Public Records. Applications are public records that may be made publicly available pursuant to state and federal public records law. Notwithstanding the foregoing, the applicant may designate portions of the application materials that it reasonably believes contain proprietary or confidential information by clearly marking each portion of such materials accordingly, and the City shall endeavor to treat the information as proprietary and confidential, subject to applicable state and federal public records laws and the Administrator’s determination that the applicant’s request for confidential or proprietary treatment of the application materials is reasonable. The City shall not be required to incur any costs to protect the application from disclosure.

(7) General Standards

(a) Generally. Wireless facilities shall meet the minimum requirements set forth in this Chapter and the wireless regulations, in addition to the requirements of any other applicable law or regulation.

(b) Regulations. The wireless regulations and decisions on wireless permits shall, at a minimum, ensure that the requirements of this Chapter are satisfied, unless it is determined that the applicant has established that denial of an application would, within the meaning of federal law, prohibit or effectively prohibit the provision of telecommunications or personal wireless services, or otherwise violate applicable laws or regulations. If that determination is made, the requirements of this Chapter and the wireless regulations may be waived, but only to the extent required to avoid the prohibition.

(c) Standards.

(1) Wireless facilities shall be installed and modified in a manner that:

- (A) Minimizes risks to public safety;
- (B) Ensures that placement of wireless equipment on existing support structures is within the tolerance of those structures;
- (C) Ensures that new support structures will not be installed when the applicant has the right to place its wireless facility on an existing structure on reasonable terms and conditions and placement in that location is technically feasible and not materially more expensive;
- (D) Avoids installation or modification of a utility pole that would exceed the height limits set forth in Wis. Stat. § 66.0414(2)(e)2, as amended;
- (E) Avoids placement of aboveground wireless facilities in historic districts and underground districts (except for placing equipment on or

LICENSES AND PERMITS 12.13 (7)

replacing pre-existing support structures, so long as the collocation or replacement reasonably conforms to the design aesthetics of the original support structure);

(F) Avoids placement of wireless facilities in residential areas when commercial or industrial areas are reasonably available;

(G) Maintains the integrity and character of the neighborhoods and corridors in which the facilities are located;

(H) Ensures that the City bears no risk or liability as a result of the installations; and

(I) Ensures that applicant's use does not obstruct or hinder travel, drainage, maintenance, or the public health, safety, and general welfare; inconvenience the public; interfere with the primary uses of the right-of-way; or hinder the ability of the City or other government entities to improve, modify, relocate, abandon, or vacate the right-of-way or any portion thereof, or to cause the improvement, modification, relocation, vacation, or abandonment of facilities in the right-of-way.

(2) In no event may ground-mounted equipment interfere with pedestrian or vehicular traffic and at all times must comply with the requirements of the Americans with Disabilities Act of 1990.

(d) Standard Permit Conditions. All wireless permits, whether granted under this Chapter or deemed granted by operation of state or federal law, are issued subject to the following minimum conditions:

(1) Compliance. The permit holder shall at all times maintain compliance with all applicable Federal, State, and local laws, regulations, and other rules.

(2) Construction Deadline. The permit holder shall commence the activity authorized by the permit no later than 365 days after the permit is granted and shall pursue work on the activity until completion.

(3) Contact Information. The permit holder shall at all times maintain with the City accurate contact information for the permit holder and all wireless service providers making use of the facility, which shall include a phone number, mailing address, and email address for at least one natural person.

(4) Emergencies. The City shall have the right to support, repair, disable, or remove any elements of the facilities in emergencies or when the facility threatens imminent harm to persons or property.

(5) Indemnification. The permit holder, by accepting a permit under this Chapter, agrees to indemnify and hold harmless the City its elected and appointed officials, officers, employees, agents, representatives, and volunteers (collectively, the "Indemnified Parties") from and against any and all liability and loss from

LICENSES AND PERMITS 12.13 (7)

personal injury or property damage resulting from or arising out of, in whole or in part, the use or occupancy of rights-of-way by the permit holder or anyone acting under its direction or control or on its behalf arising out of the rights and privileges granted under this Chapter, even if liability is also sought to be imposed on one or more of the Indemnified Parties. The obligation to indemnify, and hold harmless the Indemnified Parties shall be applicable even if the liability results in part from an act or failure to act on the part of one or more of the Indemnified Parties. However, the obligation does not apply if the liability results from the sole negligence or willful misconduct of an Indemnified Party.

(6) Adverse Impacts on Adjacent Properties. The permit holder shall undertake all reasonable efforts to avoid undue adverse impacts to adjacent properties and/or uses that may arise from the construction, operation, maintenance, modification, or removal of the facility.

(7) General Maintenance. The wireless facility and any associated structures shall be maintained in a neat and clean manner and in accordance with all approved plans and conditions of approval.

(8) Graffiti Removal. All graffiti on facilities shall be removed at the sole expense of the permit holder within 48 hours after notification from the City.

(9) Relocation. At the request of the City pursuant to Section 10 of this Chapter, the permit holder shall promptly and at its own expense permanently remove and relocate its wireless facility in the right-of-way.

(10) Abandonment. The permit holder shall promptly notify the City whenever a facility has not been in use for a continuous period of 60 days or longer and must comply with Section 11 of this Chapter.

(11) Restoration. A permit holder who removes or relocates a facility from the right-of-way or otherwise causes any damage to the right-of-way in connection with its activities under this Chapter must restore the right-of-way in accordance with Section 12 of this Chapter.

(12) Record Retention. The permit holder shall retain full and complete copies of all permits and other regulatory approvals issued in connection with the facility, which includes without limitation all conditions of approval, approved plans, resolutions, and other documentation associated with the permit or regulatory approval. In the event the City cannot locate any such full and complete permits or other regulatory approvals in its official records, and the permit holder fails to retain full and complete records in the permit holder's files, any ambiguities or uncertainties that would be resolved through an examination of the missing documents will be conclusively resolved against the permit holder.

(13) Radio Frequency Emissions. Every wireless facility shall at all times comply

LICENSES AND PERMITS 12.13 (7)

with applicable FCC regulations governing radio frequency emissions, and failure to comply with such regulations shall be treated as a material violation of the terms of the permit.

(14) Certificate of Insurance. A certificate of insurance sufficient to demonstrate to the satisfaction of the Administrator that the applicant has the capability to cover any liability that might arise out of the presence of the facility in the right-of-way.

(8) Application Processing and Appeal

(a) Rejection for Incompleteness. Notices of incompleteness shall be provided in conformity with state, local, and federal law, including 47 C.F.R. § 1.6003(d) and Wis. Stat. § 66.0414(3)(c), as amended.

(b) Processing Timeline. Wireless permit applications (including applications for other permits under Section 6(b)(11) necessary to place or modify the facility) and appeals will be processed in conformity with the deadlines set forth in state, local, and federal law, as amended, unless the applicant and the City agree to an extension.

(c) Written Decision. In the event that an application is denied (or approved with conditions beyond the standard permit conditions set forth in Section 7(d)), the Administrator shall issue a written decision with the reasons therefor, supported by substantial evidence contained in a written record. If the permit is for a small wireless facility, the applicant may cure the deficiencies identified in the written decision denying the permit and re-submit the application no later than 30 days after receipt without being required to pay an additional application fee.

(d) Appeal to City Council. Any person adversely affected by the decision of the Administrator may appeal that decision to the City Council, which may decide the issues *de novo*, and whose written decision will be the final decision of the City. An appeal by a wireless infrastructure provider must be taken jointly with the wireless service provider that intends to use the wireless facility. If an applicant contends that denial of the application would prohibit or effectively prohibit the provision of service in violation of federal law, or otherwise violate applicable law, the documentation accompanying the appeal must include that contention and provide all evidence on which the applicant relies in support of that claim.

(e) Deadline to Appeal.

(1) Appeals that involve eligible facilities requests must be filed within three business days of the written decision of the Administrator.

(2) All other appeals not governed by Section 8(e)(1), above, must be filed within seven business days of the written decision of the Administrator, unless the Administrator extends the time therefor. An extension may not be granted where extension would result in approval of the application by operation of law.

LICENSES AND PERMITS 12.13 (8)

(f) Decision Deadline. All appeals shall be conducted so that a timely written decision may be issued in accordance with the applicable deadline.

(9) Revocation

(a) Revocation for Breach. A wireless permit may be revoked for failure to comply with the conditions of the permit or applicable federal, state, or local laws, rules, or regulations. Upon revocation, the facilities for which the permit has been revoked must be removed within 30 days of receipt of written notice from the City. All costs incurred by the City in connection with the revocation, removal, and right-of-way restoration shall be paid by the permit holder.

(b) Failure to Obtain Permit. Unless exempted from permitting by Section 3(b) of this Chapter, a wireless facility installed without a wireless permit must be removed within 30 days of receipt of written notice from the City. All costs incurred by the City in connection with the notice, removal, and right-of-way restoration shall be paid by the entities who own or control any part of the wireless facility.

(10) Relocation

Except as otherwise prohibited by state or federal law, a permit holder must promptly and at its own expense, with due regard for seasonal working conditions and as directed by the City permanently remove and relocate any of its wireless facilities in the right-of-way whenever such relocation is necessary to prevent the wireless facility from interfering with a present or future City use of the right-of-way; a public improvement undertaken by the City an economic development project in which the City has an interest or investment; when the public health, safety, or welfare require it; or when necessary to prevent interference with the safety and convenience of ordinary travel over the right-of-way. Notwithstanding the foregoing, a permit holder shall not be required to remove or relocate its facilities from any right-of-way that has been vacated in favor of a non-governmental entity unless and until that entity pays the reasonable costs of removal or relocation to the permit holder.

(11) Abandonment

(a) Cessation of Use. In the event that a permitted facility within the right-of-way is not in use for a continuous period of 60 days or longer, the permit holder must promptly notify the City and do one of the following:

(1) Provide information satisfactory to the Administrator that the permit holder's obligations for its facilities under this Chapter have been lawfully assumed by another permit holder.

(2) Submit to the Administrator a proposal and instruments for dedication of the facilities to the City. If a permit holder proceeds under this Section 11(a)(2), the City may, at its option:

(A) Accept the dedication for all or a portion of the facilities;

LICENSES AND PERMITS 12.13 (11)

(B) Require the permit holder, at its own expense, to remove the facilities and perform the required restoration under Section 12; or

(C) Require the permit holder to post a bond or provide payment sufficient to reimburse the City for reasonably anticipated costs to be incurred in removing the facilities and undertaking restoration under Section 12.

(3) Remove its facilities from the right-of-way within one year and perform the required restoration under Section 12, unless the Administrator waives this requirement or provides a later deadline.

(b) Abandoned Facilities. Facilities of a permit holder who fails to comply with Section 11(a) and which, for one year, remain unused shall be deemed to be abandoned.

Abandoned facilities are deemed to be a nuisance. In addition to any remedies or rights it has at law or in equity, the City may, at its option:

(1) abate the nuisance and recover the cost from the permit holder or the permit holder's successor in interest;

(2) take possession of the facilities; and/or

(3) require removal of the facilities by the permit holder or the permit holder's successor in interest.

(12) Restoration

In the event that a permit holder removes or is required to remove a wireless facility from the right-of-way under this Chapter (or relocate it pursuant to Section 10), or otherwise causes any damage to the right-of-way in connection with its activities under this Chapter, the permit holder must restore the right-of-way to its prior condition in accordance with City specifications. However, a support structure owned by another entity authorized to maintain that support structure in the right-of-way need not be removed but must instead be restored to its prior condition. If the permit holder fails to make the restorations required by this Section 12, the City at its option may do such work after providing 15 days' written notice to the permit holder. In that event, the permit holder shall pay to the City, within 30 days of billing therefor, the cost of restoring the right-of-way.

(13) Severability

If any section, subsection, clause, phrase, or portion of this Chapter is for any reason held to be illegal or otherwise invalid by any court or administrative agency of competent jurisdiction, such illegal or invalid portion shall be severable and shall not affect or impair any remaining portion of this Chapter, which shall remain in full force and effect.

12.14 DUMPSTER PERMIT REQUIRED. (1) a. Dumpster Permit required. Unless a permit is obtained and maintained consistent with the requirements of this code, it shall be unlawful for any person to place or allow for placement of dumpsters or refuse containers for the storage of

LICENSES AND PERMITS 12.14 (1)

3. No dumpster or refuse container shall be placed in a moving lane of traffic.
4. Each permittee shall comply with any order of the City Street Superintendent to remove any dumpster or refuse container should the placement or location of the dumpster or refuse container constitute a safety hazard or nuisance.
5. No dumpster or refuse container shall be placed so as to interfere with public works construction being performed by the City.
6. The City reserves the right to deny any permit that they deem would offend the health safety, and/or welfare of the City and or any person or property.

f. Security. Each permittee shall provide a bond as provided in Section 2(b) below.

g. Duration. Each permit shall be valid for the duration of thirty (30) days. If a party wishes to have a dumpster or refuse container that requires a permit hereunder for longer than thirty (30) days they shall timely reapply so that no lapse occurs if any subsequent permit is granted.
